JEWELLED GARTERS.

Artistically Woven and Trimmed With Expensive Lace—Monogram Clasps.

The fashion for wearing jeweled garters has spread so rapidly that jewelers are keeping the article in stock. They are very expensive. A member of a conspicuous firm explains: "The rage is recent, but none the less strong, and it promises to spread indefinitely as the range is as unlimited as the purse. All the prominent society women and many who are not in society wear them. You see, women constitutionally delight in pretty things, and their adornment is of more interest and enjoyment to them than anything else. If you will come down stairs I'll show you the stock."

There was a show-case full of them, each pair mounted in a velvet box. The pattern was the same in all as far as the band was concerned. The band was a full inch wide, made of fine elastic, and covered with beautifully woven silk of every conceivable shade, pale blues and warm red predominating. They are designed to match the tint of the dress worn with them. In one case two heart-shaped clasps of colored gold, inlaid with cross-bars of turquoise and pearls, joined the ends of a scarlet band with little frills of silk along the edges. The price was \$100. A pair with two oval clasps of hammered gold, perhaps an inch in length, could be bought for \$48, while the cheapest pair with plain gold clasps, was \$40.

"It's a curious fact," said the jeweler, "that the cheap ones won't sell. When a customer wants an elegant garter, he—I mean she—is willing to pay for it."

A pair that cost \$225 had two shields with three big pearls in each and little diamonds at the edges. Another pair was expensive through its delicate lace, which was arranged in a fluffy bow-knot, with two little gold disks clasping in the center.

At another establishment the jeweler said:

"The majority of them are made to order. Your visit is opportune, as I have just finished the most expensive pair that ever left my factory. The price is \$1,200." In this the lace and pearl-colored silk band was joined by an elaborate clasp. On one side was the lady's monogram in pearls; on the other the coat-of-arms, with frosted storks' heads, a crest of delicately carved gold, and a motto set in chip diamonds. It was a present from a mother to her daughter, who is to be married soon.

"Has the demand for such garters increased?"

"It is 100 per cent. greater than last year and grows constantly."

Gen. Lee's Table.

The recent article touching "Manners in the White House," recalls a war incident. A distinguished civilian, Mr. B. was visiting a relative in the Confederate army under Gen. Lee, and was invited by that officer to take dinner at his headquarters.

"Please post me," he said to a military friend. "How are things conducted; same as in a private mansion?"

"Oh, no," said his waggish friend. "Everything must be strictly in according with military etiquette."

"Well, what is that?"

"Why, Gen. Lee takes the foot of the table, and you will be seated on his right. Col. Chilton will take the head of the table, and, as soon as all are seated, Gen. Lee will ask a blessing."

"Well, what then?"

"He will ask you what you will take, and, as there will be nothing but beef and bread on the table, politeness will require that you answer 'beef.' Then Gen. Lee will turn to Col. Chilton and say, 'Beef, for Mr. B.' Col. Chilton will seize the carver, and, disengaging a slice, and placing it on a plate will say,

"Beef for Mr. B.
By order of Gen. Lee,
R. H. Chilton. A. A. G."

The Milwaukee Brewing Association building was damaged \$25,000 by fire.

For and About Women.

Madame de Pompadour was so earnest a patroness of beautiful work in china-ware that owing to her influence and interest the Sevres china factories may attribute much of their primary success.

The wife of Senator Mahone has won in Washington the distinction of wearing handsomer jewels than does any other woman in official society. Her diamonds used long ago to be matter of comment; and when she returned from Europe lately her husband presented her with additions to her jewel-case valued at \$40,000.

It was a woman—Madame Darnet, the wife of a French surgeon—who discovered, at St. Grieix, the bed of kaolin which first gave France the material for the manufacture of real china, hard porcelain, instead of the tender, porous stuff before made. Madame received no recompense until far advanced in years, and when she became a victim of poverty a scanty pension was allowed her.

Mrs. Haggart is an Indiana woman's rights agitator. She recently headed a delegation to urge the passage by the legislature of a measure favorable to her sex. She says: "Twenty or thirty women left everything to attend the legislature; they might have been called the third house. If a man had any doubts, we made him the object of special attention. Two or three sisters were detailed to look after the doubting. We had nice cakes and ices and evening entertainments, to which we invited the members of the legislature." The desired legislation was obtained.

Mary Ann Hermann, the poor lunatic who beat Tanner at his own game and died a short time ago, after a sixty-three days' fast, uttered only one cry of suffering during her long period of torture and that shortly before her death, when, singularly enough, a severe attack of the mumps was added to her miseries. During the last twelve days of her life she lost twenty pounds in weight and at the time of her death weighed scarcely more than seventy-five pounds, having lost one hundred and five pounds in all during the fast.

The Farmer's Interests.

Says the Philadelphia Press: Three-fourths and a little over, of the crop year is now gone, and the United States, which grew three-quarter crops last year, begin to feel the pinch in prices. We fed the world last year. We have not this year more than enough to feed ourselves. If the demands of Europe were this year as great as those of 1880 or 1881, and the United States and England, which eat a quarter of the world's wheat, were bidding against each other for the diminishing stock of wheat, flour would be at war, not to say starvation, prices. As it is, steamers lying in New York harbor are paying people to fill them up with wheat, the call for wheat is so slack abroad; while the Chicago elevators grow emptier and emptier, so little wheat is there in this country. The chances are that supply and demand will have a close race in meeting the supply of this country alone, whose surplus enabled it a year ago to send abroad 175,000,000 bushels, but which this year, with the new crop three months off, has just about three months' wheat rations. Any accident, a May or June drought, or one in July to curl the corn, heavy rains at the wrong time, danger, or the serious threatening of danger, to new crops will drive food up to prices not registered for years in this country. As it is, the United States, which consumed in the last crop year 330,000,000 bushels, has no large margin this year, after starting with 430,000,000 bushels, all told, exporting 70,000,000 bushels of this year's crop and adding from all sources, over 2,000,000 to its consumers. It will surprise no one that a nation, running so close to its food margin, has in sight only half as much wheat and two-thirds as much corn as last year at this time.

In outline, this is the wheat outlook because it the key to the present situation. The future is as secure as ever, and United States bonds, whose value rests not on this year's profits but upon the averaged resources of a century, rose still higher last week. So did bonds which partake of the character. But all railroad stocks whose value pivots on the national truck ruled lower. In a nation which sends nothing abroad but its crops, railroad receipts must depend on crops, and the most careless see, as the visible supply gets lower, that there is less to move. Purchases from abroad continue, sales to Europe are light, and gold would have gone abroad last week but for the fact that steamers were charging one cent to carry a bushel of grain across the Atlantic. This enabled the foreign buyers to pay the American price—since the distance was wiped out—and commercial bills eased off the demand for exchange. In all centres of distribution, the spring purchaser is still just around the corner, and the chief sign of activity is in speculative purchases of food—grain and pork. After working down through February, price in these articles has been steadily working up, with a break occasionally. One came Saturday; but the break will not stop the advance, which promises to make the next ninety days pinching ones for all to whom the current price of food is a vital matter. Manufacturing runs along on its momentum; but the course of the cotton market

and the state of the coal trade show that no pressing demand exists.

All signs point to big crops this year and big crops means prosperity; but prudent men will note at this juncture that a great many manufacturers will hold up next fall until the November election decides how the tariff is to go the year after, that an export of gold grows more and more probable, that a very serious strain will fall on our currency next winter in the reorganization of National banks, unless congress does something, and that it is barely possible we may have next fall a great deal more wheat than we can sell.

Thus far the U. S. House has passed about three hundred and twenty bills, and the Senate has passed about three hundred. There have been introduced in the House this season six thousand bills, and in the Senate nearly eighteen hundred, irrespective of joint resolutions, &c.

PILES! PILES! PILES!

A Sure Cure Found at Last—No One Need Suffer!

A sure cure for blind, bleeding, itching and ulcerated piles has been discovered by Dr. William, (an Indian remedy,) called Dr. Williams' Indian Ointment. A single box has cured the worst chronic cases of twenty-five or thirty years standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions instruments and electuaries do more harm than good. Williams' Ointment absorbs the tumors, allays the intense itching, (particularly at night after getting warm in bed,) acts as a poultice, gives instant and painless relief, and is prepared only for piles, itching of the private parts, and nothing else.

Read what the Hon. J. M. Coffinberry, of Cleveland, says about Dr. William's Pile Ointment: I have used scores of pile cures, and it affords me pleasure to say that I have never found anything which gave me such immediate and permanent relief as Dr. Williams' Indian Ointment.

Dr. Frazier's Root Bitters.

Frazier's Root Bitters are not a dram-shop whisky beverage, but are strictly medicinal in every sense. They act strongly upon the liver and kidneys, keep the bowels open and regular, make the weak strong, heal the lungs, build up the nerves and cleanse the blood and system of every impurity.

For dizziness, rush of blood to the head tending to apoplexy, dyspepsia, fever and ague, dropsy, pimples and blotches, serofulous humors and sores, tetter, ring worm, white swelling, erysipelas, sore eyes and for young men suffering from weakness or debility caused from imprudence, and to females in delicate health, Frazier's Root Bitters are especially recommended.

Dr. Frazier: I have used two bottles of your Root Bitters for dyspepsia, dizziness, weakness and kidney disease, and they did me more good than the doctors and all the medicine I ever used. From the first dose I took I began to mend, and I am now in perfect health, and feel as well as I ever did. I consider your medicine one of the greatest blessings.

BATCHELDER'S

Ventilated Egg Case.

Patented February 15, 1881.

Indispensable to Merchants Shippers And Producers.

The outside frame of this carrier contains five trays, held in place by fasteners at end of case, as seen in cut. These Trays are constructed in reversible halves. The above cut shows one whole tray filled ready to be placed in case, each egg resting in its cardboard socket in such a manner as to be readily counted, candled, or transferred from tray to tray, or case to case, without rehandling.

For cold storage this case will store 60 dozen with racks made to receive the half trays, hence this is the cheapest storage case manufactured, saving largely in space.

The manner of holding the eggs on end prevents oscillation, jolting, or breakage, and adds greatly to their freshness when carried long in storage. Size of 30 dozen No. 1 cases 25x12x14, weighs 20 pounds.

PRICES IN CHICAGO.

Shipper's No. 1, 30 doz. Case with Fillers complete 65 Cents.

Farmer's No. 1, 18 doz. Case with Fillers complete 55 Cents.

Cardboard Fillers for refilling 20 Cents.

15 per cent. discount on lots of 100 cases.

Batchelder's Egg Tester, 1 string 6 doz. at once, saves to buyers many times its cost each sea-

son. Price \$3.00.

By special arrangements made by the manufacturers of this case most Railroads will receive them as fourth class freight.

The 18 dozen case made especially for Farmers' use, sent to any address by express, with on receipt of 50 cents. Every Farmer and consumer should have one of these cases, it will save its cost every month. Agents wanted in every county. Address,

The Farmer's Interests.

Says the Philadelphia Press: Three-fourths and a little over, of the crop year is now gone, and the United States, which grew three-quarter crops last year, begin to feel the pinch in prices. We fed the world last year. We have not this year more than enough to feed ourselves. If the demands of Europe were this year as great as those of 1880 or 1881, and the United States and England, which eat a quarter of the world's wheat, were bidding against each other for the diminishing stock of wheat, flour would be at war, not to say starvation, prices. As it is, steamers lying in New York harbor are paying people to fill them up with wheat, the call for wheat is so slack abroad; while the Chicago elevators grow emptier and emptier, so little wheat is there in this country. The chances are that supply and demand will have a close race in meeting the supply of this country alone, whose surplus enabled it a year ago to send abroad 175,000,000 bushels, but which this year, with the new crop three months off, has just about three months' wheat rations. Any accident, a May or June drought, or one in July to curl the corn, heavy rains at the wrong time, danger, or the serious threatening of danger, to new crops will drive food up to prices not registered for years in this country. As it is, the United States, which consumed in the last crop year 330,000,000 bushels, has no large margin this year, after starting with 430,000,000 bushels, all told, exporting 70,000,000 bushels of this year's crop and adding from all sources, over 2,000,000 to its consumers. It will surprise no one that a nation, running so close to its food margin, has in sight only half as much wheat and two-thirds as much corn as last year at this time.

In outline, this is the wheat outlook because it is the key to the present situation. The future is as secure as ever, and United States bonds, whose value rests not on this year's profits but upon the averaged resources of a century, rose still higher last week. So did bonds which partake of the character. But all railroad stocks whose value pivots on the national truck ruled lower. In a nation which sends nothing abroad but its crops, railroad receipts must depend on crops, and the most careless see, as the visible supply gets lower, that there is less to move. Purchases from abroad continue, sales to Europe are light, and gold would have gone abroad last week but for the fact that steamers were charging one cent to carry a bushel of grain across the Atlantic. This enabled the foreign buyers to pay the American price—since the distance was wiped out—and commercial bills eased off the demand for exchange. In all centres of distribution, the spring purchaser is still just around the corner, and the chief sign of activity is in speculative purchases of food—grain and pork. After working down through February, price in these articles has been steadily working up, with a break occasionally. One came Saturday; but the break will not stop the advance, which promises to make the next ninety days pinching ones for all to whom the current price of food is a vital matter. Manufacturing runs along on its momentum; but the course of the cotton market

and the state of the coal trade show that no pressing demand exists.

All signs point to big crops this year and big crops means prosperity; but prudent men will note at this juncture that a great many manufacturers will hold up next fall until the November election decides how the tariff is to go the year after, that an export of gold grows more and more probable, that a very serious strain will fall on our currency next winter in the reorganization of National banks, unless congress does something, and that it is barely possible we may have next fall a great deal more wheat than we can sell.

Thus far the U. S. House has passed about three hundred and twenty bills, and the Senate has passed about three hundred. There have been introduced in the House this season six thousand bills, and in the Senate nearly eighteen hundred, irrespective of joint resolutions, &c.

and the state of the coal trade show that no pressing demand exists.

PILES! PILES! PILES!

A Sure Cure Found at Last—No One Need Suffer!

A sure cure for blind, bleeding, itching and ulcerated piles has been discovered by Dr. William, (an Indian remedy,) called Dr. Williams' Indian Ointment. A single box has cured the worst chronic cases of twenty-five or thirty years standing. No one need suffer five minutes after applying this wonderful sooth-ing medicine. Lotions instruments and elec-turies do more harm than good. Williams' Ointment absorbs the tumors, allays the intense itching, (particularly at night after get-ting warm in bed,) acts as a poultice, gives instant and painless relief, and is prepared only for piles, itching of the private parts, and nothing else.

Read what the Hon. J. M. Coffinberry, of Cleveland, says about Dr. William's Pile Ointment: I have used scores of pile cures, and it affords me pleasure to say that I have never found anything which gave me such immediate and permanent relief as Dr. Williams' Indian Ointment.

SAMUEL BULGER, of Fleming county, arrested in Maysville for petit larceny, has been released.

Mr. Chas. H. Stine, for some time past, employed on the Flemingsburg Democrat, has given up printing, and taken a place in a drug store at Flemingsburg.

AT Cincinnati, one day last week Miss Jessie Markwell, of Fleming county, had a pocket book containing twenty dollars snatched from her upon the street.

Two barns and a dwelling house on the farm of Mr. Joseph Bivens in Lewis county, were entirely destroyed by the storm on the 26th. Mrs. Bivens had both legs and one arm broken. The roof of the dwelling was carried a distance of three miles.

WINFIELD HARRIS is in the Big Sandy Valley laboring zealously, as a Mormon Missionary, and has prevailed on a number of ignorant people to give up their homes in Eastern Kentucky, and go to Utah. The Mormons also have a church in Johnson county, Ky.

THE Louisville Commercial which first made the charges against Capt. J. T. Henry now denounces as "a colossal lie" the statement that it has charged "distinctly that Capt. Henry used obscenity in the presence and hearing of ladies and made an indecent exposure of his person."

THE friends of Mr. Andrew Brittain and others, who lost almost everything they had by the recent storm, are circulating a subscription list for their benefit. As it is a case that appeals very strongly to the sympathies of the public, it is to be hoped a sufficient sum will be raised to relieve the immediate necessities of the sufferers.

THE Germantown correspondent of the Bracken Chronicle says:

A young man from the heart of old Mason, had been courting for some time near Fernleaf. One evening the mater familias noticed that he made frequent visits from the parlor to his satchel in the hall, and concluded to ascertain the occasion of it. She was much relieved to find it was only a quiet bottle of bromide of potassa solution that he was using to quiet his nerves. He doubtless popped the question that evening.

A LARGE number of seats have been reserved by holders of tickets to the entertainment this evening by the Smith Family and Decorative Sisters. The outlook is that there will be a large audience present. The programme is interesting and amusing and is sure to meet the warm approval of all. If you want to pass the evening pleasantly, don't fail to attend.

A BRUTE

Who Deserves the Severest Punishment the Law Inflicts.

Last night about half-past seven o'clock, Hamilton Combst, a young man twenty-two or twenty-three years old, who stated that he lives near Murphysville, in this county, was detected in a horrible and disgusting crime. The offense was committed in a yard in the rear of Weiland's saloon on Market street, and was witnessed by a number of persons, who gave the disgusting details in full at the examining trial before Mayor January this morning. Combst was held to appear for trial at the Circuit Court in the sum of \$200. The witnesses were sent immediately before the grand jury and it is probable an indictment will be reported to-day, and the trial take place at the present term of the court. The penalty for the crime is fixed by the statutes at confinement in the penitentiary from two to five years. Deputy Marshal McAuliff was the arresting officer. Combst attempted to escape by running but was overtaken by the officer and several citizens who took up the chase.

Horrible Fate.

OWINGSVILLE, Ky., April 27, 1882.—Over the river in Fleming county, the wife of Mr. R. M. Boyd was horribly burned. Standing near the fire and engaged in cutting the hair of one of her little boys, her dress took fire and was in a blaze before she noticed it. It was impossible to smother the flames, which continued until every vestige of her clothing was burned off leaving her body in a frightful condition. The physician who attended her says there is no possible chance of her recovery. The hair on her head was burned entirely off. The little boy was badly burned while clinging to his mother. His recovery is also doubtful. It is one of the saddest affairs that has ever occurred here.

Sales of Land.

The following changes in the ownership of land have been recorded at the office of the Clerk of the County Court since our last report:

Nancy E Barrett to Caroline Sroufe, grantor's interest in 80 $\frac{1}{2}$ acres of land near Dover; consideration, \$475.

Fannie Worthington and son to Thomas R Haughey, 95 acres of land, near Fern Leaf; consideration, \$5,600.

Michael Walton and wife to E Clarke, 2 acres 1 rood and 8 poles of land near Mayslick, consideration, \$600.

W W Baldwin and wife to Henry Gibbs, colored, 11 acres, 1 rood and 21 poles of land near Washington; consideration, \$1,422.65.

PERSONALS.

Points About People Here and Elsewhere.

Mrs. Virginia Stroube, of Augusta, was stricken by paralysis a few days ago.

Mr. Taylor J. Riley, late city editor of the Lexington Transcript, has been employed by a Chicago firm to write up county history in Indiana.

THE case of Perry Rice vs. the Maysville and Lexington Turnpike Road Company, is the most important case upon the circuit court docket. It is a suit to recover \$15,000 claimed as damages, sustained by the plaintiff in an injury to his left eye from the projecting limb of a thorn tree, while riding upon the road. The jury was obtained and sworn yesterday. The plaintiff and his brother, Joseph Rice, were heard as witnesses, and several depositions on the same side read. The case is still upon trial to-day, and will probably occupy the balance of this week if it does not run into the next. The array of counsel upon both sides is very strong, and shows how earnestly each party is guarding and defending its rights. Messrs. Ross & Kennedy and Whitaker & Robertson represent the plaintiff, while Wm. H. Wadsworth & Sons, Stanton & Larew and E. C. Phister & Son are for the Turnpike Company.

THE City of Ironton is laid up at Ripley.

RALPH WALDO EMMERSON died at Concord, Mass., Thursday.

THE railroad laborers of Huntington's force are at work at three points a short distance below Augusta. There are three squads of about twenty-five men each. The C. & S. E. authorities have engaged about three hundred men to work between Augusta and Newport on bridge work. This work is to be pushed forward as it is much behind the grading. Major Kirby's force is engaged between Augusta and Foster.

A CORRESPONDENT of the Louisville Post asked this question of a close observer at Frankfort: "Who among the younger members, those serving their first term, have commended themselves to the public as capable officials?" The answer respecting Mr. Kehoe was: "For equanimity J. Dexter Kehoe never had a superior. His sphinx-like face, set in its frame of side whiskers, is as imperturbable as his name is uncommon. If he were standing on the street corner now, and some one should explode a bomb-shell under his coat-tail, he would simply look round and say, 'hump!' He is a rare bird—and a good one."

THE Fox Springs property was sold to C. C. Davis, a few days ago, for \$2,250.

SAMUEL BULGER, of Fleming county, arrested in Maysville for petit larceny, has been released.

Mr. Chas. H. Stine, for some time past, employed on the Flemingsburg Democrat, has given up printing, and taken a place in a drug store at Flemingsburg.

AT Cincinnati, one day last week Miss Jessie Markwell, of Fleming county, had a pocket book containing twenty dollars snatched from her upon the street.

Two barns and a dwelling house on the farm of Mr. Joseph Bivens in Lewis county, were entirely destroyed by the storm on the 26th. Mrs. Bivens had both legs and one arm broken. The roof of the dwelling was carried a distance of three miles.

WINFIELD HARRIS is in the Big Sandy Valley laboring zealously, as a Mormon Missionary, and has prevailed on a number of ignorant people to give up their homes in Eastern Kentucky, and go to Utah. The Mormons also have a church in Johnson county, Ky.

THE Louisville Commercial which first made the charges against Capt. J. T. Henry now denounces as "a colossal lie" the statement that it has charged "distinctly that Capt. Henry used obscenity in the presence and hearing of ladies and made an indecent exposure of his person."

THE friends of Mr. Andrew Brittain and others, who lost almost everything they had by the recent storm, are circulating a subscription list for their benefit. As it is a case that appeals very strongly to the sympathies of the public, it is to be hoped a sufficient sum will be raised to relieve the immediate necessities of the sufferers.

THE Germantown correspondent of the Bracken Chronicle says:

A young man from the heart of old Mason, had been courting for some time near Fernleaf. One evening the mater familias noticed that he made frequent visits from the parlor to his satchel in the hall, and concluded to ascertain the occasion of it. She was much relieved to find it was only a quiet bottle of bromide of potassium solution that he was using to quiet his nerves. He doubtless popped the question that evening.

A LARGE number of seats have been reserved by holders of tickets to the entertainment this evening by the Smith Family and Decorative Sisters. The outlook is that there will be a large audience present. The programme is interesting and amusing and is sure to meet the warm approval of all. If you want to pass the evening pleasantly, don't fail to attend.

A BRUTE

Who Deserves the Severest Punishment the Law Inflicts.

Last night about half-past seven o'clock, Hamilton Combst, a young man twenty-two or twenty-three years old, who stated that he lives near Murphysville, in this county, was detected in a horrible and disgusting crime. The offense was committed in a yard in the rear of Weiand's saloon on Market street, and was witnessed by a number of persons, who gave the disgusting details in full at the examining trial before Mayor January this morning. Combst was held to appear for trial at the Circuit Court in the sum of \$200. The witnesses were sent immediately before the grand jury and it is probable an indictment will be reported to-day, and the trial take place at the present term of the court. The penalty for the crime is fixed by the statutes at confinement in the penitentiary from two to five years. Deputy Marshal McAuliff was the arresting officer. Combst attempted to escape by running but was overtaken by the officer and several citizens who took up the chase.

Horrible Fate.

OWINGSVILLE, Ky., April 27, 1882.—Over the river in Fleming county, the wife of Mr. R. M. Boyd was horribly burned. Standing near the fire and engaged in cutting the hair of one of her little boys, her dress took fire and was in a blaze before she noticed it. It was impossible to smother the flames, which continued until every vestige of her clothing was burned off leaving her body in a frightful condition. The physician who attended her says there is no possible chance of her recovery. The hair on her head was burned entirely off. The little boy was badly burned while clinging to his mother. His recovery is also doubtful. It is one of the saddest affairs that has ever occurred here.

Sales of Land.

The following changes in the ownership of land have been recorded at the office of the Clerk of the County Court since our last report:

Nancy E. Barrett to Caroline Sroufe, grantor's interest in $\frac{1}{2}$ acres of land near Dover; consideration, \$175.

Fannie Worthington and son to Thomas R. Haughey, 95 acres of land, near Fern Leaf; consideration, \$5,000.

Michael Walton and wife to E. Clarke, 2 acres 1 rood and 8 poles of land near Mayslick, consideration, \$600.

W. W. Baldwin and wife to Henry Gibbs, colored, 11 acres, 1 rood and 21 poles of land near Washington; consideration, \$1,422.65.

PERSONALS.

Points About People Here and Elsewhere.

Mrs. Virginia Stroube, of Augusta, was stricken by paralysis a few days ago.

Mr. Taylor J. Riley, late city editor of the Lexington Transcript, has been employed by a Chicago firm to write up county history in Indiana.

THE case of Perry Rice vs. the Maysville and Lexington Turnpike Road Company, is the most important case upon the circuit court docket. It is a suit to recover \$15,000 claimed as damages, sustained by the plaintiff in an injury to his left eye from the projecting limb of a thorn tree, while riding upon the road. The jury was obtained and sworn yesterday. The plaintiff and his brother, Joseph Rice, were heard as witnesses, and several depositions on the same side read. The case is still upon trial to-day, and will probably occupy the balance of this week if it does not run into the next. The array of counsel upon both sides is very strong, and shows how earnestly each party is guarding and defending its rights. Messrs. Ross & Kennedy and Whitaker & Robertson represent the plaintiff, while Wm. H. Wadsworth & Sons, Stanton & Larew and E. C. Phister & Son are for the Turnpike Company.

THE City of Ironton is laid up at Ripley.

RALPH WALDO EMMERSON died at Concord, Mass., Thursday.

THE railroad laborers of Huntington's force are at work at three points a short distance below Augusta. There are three squads of about twenty-five men each. The C. & S. E. authorities have engaged about three hundred men to work between Augusta and Newport on bridge work. This work is to be pushed forward as it is much behind the grading. Major Kirby's force is engaged between Augusta and Foster.

A CORRESPONDENT of the Louisville Post asked this question of a close observer at Frankfort: "Who among the younger members, those serving their first term, have commended themselves to the public as capable officials?" The answer respecting Mr. Kehoe was: "For equanimity J. Dexter Kehoe never had a superior. His sphinx-like face, set in its frame of side whiskers, is as imperturbable as his name is uncommon. If he were standing on the street corner now, and some one should explode a bomb-shell under his coat-tail, he would simply look round and say, 'hump!'" He is a rare bird—and a good one."

J. M. WRIGHT, Secretary.

[Circular.]

DEMOCRATIC STATE CENTRAL COMMITTEE, LOUISVILLE, April 24, 1882.—The Democratic State Convention which met in Frankfort in January, 1882, provided the following organization for the Democratic party of the State of Kentucky:

First—A State Committee composed of one committeeman from each congressional district.

Second—A State Central Committee composed of seven committeemen selected from the State at large.

And by resolution provided for the appointment of local committees as follows:

"It shall be the duty of the County Conventions of the several counties to name to the State Central Committee the County or Legislative District Committees for the several county or legislative districts, and it shall be the duty of State Central Committee to so appoint the committee for said counties or legislative districts; but in the event of failure on the part of any county convention to furnish the State Central Committee within a reasonable time the list of committee to be so named, then the State Central Committee shall appoint said committee, and in all cases designate the chairman of the county or legislative district committee."

At the first meeting of the State Central Committee organized under the foregoing resolution a circular was addressed to the county and legislative district party authorities requesting them to provide, before May 1, 1882, for the appointment of Executive Committees for the respective county and legislative districts, as in the event of failure so to do it would, after May 1st become the duty of the State Central Committee to make the appointments.

At the recent meeting of the State Central Committee, Hon. A. E. Richards, Chairman, resigned, and Hon. John M. Atherton was chosen Chairman in his place and J. M. Wright was elected to the vacancy on the committee thereby created. At the same time Hon. W. B. Machen resigned from committee and Hon. W. J. Stone, of Lyon county, was selected in his place. The creation of a new congressional district necessitating an increase in the State Committee, Hon. James H. Mulligan, of Fayette, was elected a member of said committee.
